GENESIS

3.8	5.0
CORE VOLUME LUXURY WITH UNSURPASSED SAFETY	PINNACLE OF LUXURY, STYLE AND PERFORMANCE
3.8 SIGNATURE PACKAGE	
3.8 TECH PACKAGE	5.0 ULTIMATE PACKAGE
3.8 ULTIMATE PACKAGE	
ALL-WHEEL DRIVE OR REAR-WHEEL DRIVE	REAR-WHEEL DRIVE

SAFETY

COMMON ADVANCED SAFETY TECHNOLOGY
(ACCIDENT AVOIDANCE)

- **4-Wheel Disc Brakes with Anti-Lock Braking System (ABS)**: 4-sensor, 4-channel system provides the ability to brake and steer:
  - Electronic Brake-force Distribution (EBD) keeps the braking smooth and level
  - Brake Assist monitors brake pedal pressure and provides maximum braking force when a panic stop is detected
- **Electronic Stability Control (ESC):** Keeps the vehicle on the intended path
- **Traction Control System (TCS)**: Helps maintains traction, when needed
- **Tire Pressure Monitoring System (TPMS):** Monitors tire pressure and alerts the driver when tire pressure on one or more tires is low
- **Visibility Feature**: Rain-sensing wipers

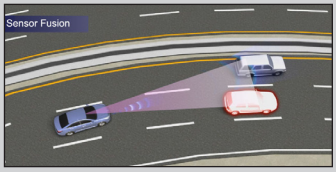
COMMON PASSIVE ADVANCED SAFETY
(IN CASE OF ACCIDENT)

- **Nine Airbags:**
  - Advanced dual front airbags, front and rear seat-mounted side-impact airbags, driver knee airbag, roof-mounted side-curtain airbags
  - Seatbelt pretensioners take the slack out of seatbelts in the event of a certain collision
  - Anti-whiplash front head restraints

HYUNDAI | NEW THINKING. NEW POSSIBILITIES.

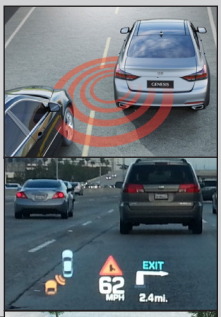
ADDITIONAL SAFETY FEATURES
(OPTIONAL ON 3.8, STANDARD ON 5.0)

- **Automatic Emergency Braking**: A Hyundai first, Genesis employs automatic braking when it detects a slower or stopped vehicle ahead; this system utilizes the Smart Cruise Control system (radar) as well as the camera from the Lane Keep Assist

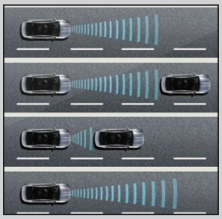


- **Haptic Steering Warning System:** A Hyundai first, turned on or off by Lane Keep Assist and Blind Spot Detection switch; alerts drivers with a vibration through the steering wheel due to inadvertent lane departure or blind spot detection with turn signal
- **Lane Departure Warning (LDW)**: Monitors both broken and solid lanes on the highway using a camera mounted near the interior mirror; at speeds above 40 mph, LDW alerts the driver when the vehicle leaves the lane without using the turn signal by "vibrating" the steering wheel and providing an audio and visual warning:
  - Bad weather and skid marks on the road may cause a false indicator
  - System can be turned on or off with a switch

- **Lane Keep Assist (LKA)**: Detects lane departure and applies slight corrective steering measures to keep the vehicle from drifting out of lane; provides haptic feedback through steering wheel vibration when the vehicle departs the lane:
  - Driver can set the steering assistance level to pre or post lane departure
- **Blind Spot Detection (BSD)**: Detects vehicles in the driver's blind spot; provides the driver with an audio and visual alert when an obstruction is detected:
  - A visual alert can also be displayed on vehicles equipped with Heads-up Display (segment first)
- **Rear Cross-Traffic Alert**: Detects vehicles in the rear cross path and alerts the driver when an obstruction is detected
- **Lane Change Assist**: Provides a warning of a vehicle that is rapidly approaching from the rear



- **Smart Cruise Control**: Radar-assisted, automatically maintains a preset distance between vehicles at a pre-selected speed; SCC operates like regular cruise control when there are no other vehicles in front:
  - When there is another vehicle in front, SCC engages the brakes automatically and slows the vehicle to maintain speed with the vehicle in front while retaining the preset distance
  - The driver can select one of four distance settings
  - Includes Stop/Start Function: When activated, Genesis will automatically come to a complete stop when the vehicle ahead stops–the driver does not need to engage the brake:
    - The vehicle will then restart automatically if the vehicle ahead starts within 3 seconds
    - After 3 seconds, the Genesis can resume speed by tapping the accelerator pedal or pressing the Resume button on the steering wheel



- **High-Intensity Discharge (HID) Headlights**: With LED turn signal indicators; more effectively illuminate the road at night; includes:
  - Auto-leveling and automatic headlights steering angle sensors for added illumination of the road
  - **High Beam Assist**: Automatically switches from high to low beams when an oncoming vehicle is detected or when approaching another vehicle
- **Electronic Parking Brake (EPB):** Replaces hand or foot pedal parking brake; EPB releases when the transmission is shifted out of Park:
  - Automatic Vehicle Hold: Assists the driver at a stop by holding the vehicle on an incline or decline; releases when the accelerator is applied
- **Front and Rear Parking Assist System**: Sensors in the front and rear bumpers assist as the driver parks the Genesis
- **Dual Power-Folding Heated Side Mirrors:** With turn signal indicators and approach lamps; can be operated by the interior door-mounted switch or with the Proximity Key lock and unlock buttons
  - **Auto-Dimming Side Mirrors**

3.8 PACKAGING

SIGNATURE PACKAGE

- Ventilated front seats
- Integrated Memory System (IMS)
- Power tilt-and-telescopic steering wheel
- Auto-dimming outside mirrors
- Power tilt-and-slide panoramic sunroof
- HID headlights
- Parking guidelines
- Blind Spot Detection/Rear Cross-Traffic Alert
- Lexicon® 14-speaker Discrete Logic 7 Surround Audio
- Power rear sunshade and manual rear side shades

TECH PACKAGE (REQUIRES SIGNATURE PACKAGE)

- Ultra-premium leather seating surfaces
- 16-way power front seats includes power bolster, cushion extender and 4-way power lumbar
- Lane Departure Warning (LDW)
- Lane Keep Assist (LKA)
- Smart Cruise Control with stop/start
- Haptic steering wheel
- Automatic Emergency Braking (AEB)
- Electronic parking brake with automatic vehicle hold
- Pre-safety seatbelt
- High Beam Assist
- Front and Rear Parking Assistance System
- 7-inch TFT LCD cluster display

ULTIMATE PACKAGE (REQUIRES TECH PACKAGE)

- Genuine matte finish wood trim and aluminum trim
- Heads-up Display
- Premium DIS Navigation with 9.2-inch display, Gracenote® album art, junction view with lane guidance, advanced voice recognition and music/image/video storage via USB download (30GB)
- Lexicon® 17-speaker Discrete Logic 7 Surround Audio
- Power trunk lid
- Dual-mode vent control HVAC
- **CO_2 Sensor Control System**: A Hyundai first and a world's first; detects elevated levels of Carbon Dioxide (CO_2) in the cabin and automatically activates the ventilation system to bring in fresh air, keeping the driver alert and passengers comfortable

ALL-WHEEL DRIVE (AVAILABLE WITH ALL 3.8 TRIMS)

- **HTRAC® AWD System:** A world's first, utilizes an electronic transfer case with active torque control—torque can be 100% transferred to the front wheels via an electronically controlled multi-plate clutch
- This design offers excellent stability, efficiency and a quick response to slippery conditions
- Offers multi-mode setting with a higher torque distribution range than competitive vehicle (this is linked to Drive Mode Select)
- Torque vectoring can transfer power to non-slipping wheels
- Heated steering wheel and rear seats
- Headlight washer

3.8 PERFORMANCE

- **3.8-Liter DOHC GDI Lambda V6**: With 311 horsepower @ 6,000 rpm (Regular) and 293 lb.-ft of torque @ 5,000 rpm (Regular)
- **Variable Intake System (VIS):** Increases low- and high-speed power output in all weather and altitude conditions
- **Gasoline Direct Fuel Injection:** With triangular pattern injectors for improved combustion
- **Maintenance-Free Steel Silent Timing Chain:** Minimizes chain noise during idle and acceleration
- **Iridium Double-Tipped Spark Plugs:** Replacement at 105,000
- **Intelligent Drive Mode Select**: The driver can chose one of four driving modes: Eco (fuel saving driving), Normal (comfortable driving), Sport (dynamic driving) and Snow (low-traction driving conditions):
  - o Drive mode linked to HTRAC® AWD system
- **8-Speed SHIFTRONIC® Automatic Transmission**: Features enhanced shift logic, improved gear change speed for more responsive performance and paddle shifters:
  - o Overdrive lock-up torque converter for higher fuel economy at freeway speeds

- **18-Inch Alloy Wheels**
- **All-New Platform**: Features a greater application of advanced high-strength steel, which results in a body structure that is more rigid than the BMW 5 Series; helps reduce noise and vibration levels
- **Rack-Mounted Electric Power Steering (R-MDPS) with Variable Gear Ratio (VGR)**: A Hyundai first, it's standard on all Genesis models; this design offers more responsive steering feel at freeway speeds and around the town
- **Revised 5 Multi-Link Front and Rear Suspension:** Improves ride quality and stability

3.8 COMFORT & CONVENIENCE

- Remote and Proximity Key: Entry with push button start
- 12-way power front seats with 4-way power lumbar adjustment
- 2-position rearview camera with distance indicator; activates when transmission is shifted into reverse
- HomeLink® integrated transceiver
- Heated front seats are standard; heated rear seats (standard on 3.8 AWD)
- Ski pass-through opening is color coded to match the interior
- Hands-free smart trunk with auto open
- Leather-wrapped steering wheel with paddle shifters and steering wheel-mounted controls for audio, Smart Cruise Control (SCC), voice recognition, *Bluetooth*® phone and trip computer:
  - o 3.8 AWD: Includes heated steering wheel; activated by switch; shuts off after 30 minutes

- Electroluminescent instrument cluster (Supervision) with 4.3-inch Thin Film Transistor LCD screen
- Acoustic-Laminated Glass: On the windshield, and front and rear door windows; helps reduce wind noise
- Rain-sensing wipers with auto defogging windshield
- Heated dual power folding outside mirrors with turn signal indicators and "Genesis Logo" puddle lamps
- Dual automatic temperature control

3.8 AUDIO & NAVIGATION

- AM/FM/HD Radio®/SiriusXM®/CD/MP3 audio system with seven speakers and internal amplifier

- GreenEdge™ Audio Systems: Combine high-efficiency speakers and amplifiers to deliver superior sound quality and high output with minimum energy consumption

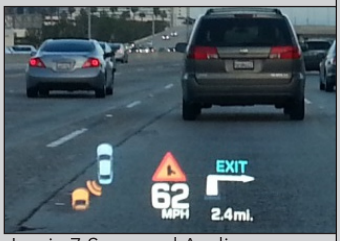
- Navigation System with 8-inch display, integrated SiriusXM satellite Radio and Data Service, and more radio stations and channels:
  - o SXM Travel Link Data Service: Traffic, weather, fuel price, stock, sports, movies
  - o Integrated Apps: Pandora and Aha Radio (Apple iOS and Android), SoundHound (Blue Link® Guidance Package)
  - o Google POI voice search (Blue Link® Guidance Package), Apple Siri Eyes Free integration
- iPod®/USB and auxiliary input jacks
- *Bluetooth*® hands-free phone system

HYUNDAI | NEW THINKING. NEW POSSIBILITIES.

5.0 PACKAGING

ULTIMATE PACKAGE

- **Heads-Up Display**: Reduces driver distraction as key information items are projected on the windshield directly in the driver's line of sight; can be turned on and off:
  - Can display vehicle speed, turn-by-turn navigation, Blind Spot Detection, Lane Departure Warning, Smart Cruise Control and traffic information



- Premium Navigation System with 9.2-inch HD display
- Lexicon® 17-speaker Discrete Logic 7 Surround Audio
- **Continuous Damping Control (CDC)** (optional on 5.0): When driving normally, the damping force is adjusted automatically to ensure superior ride comfort; damping force is increased for enhanced precision, stability and control; also offers Sport Mode that adjusts suspension, steering feel and transmission shift points
- Power trunk lid
- **Dual-Mode Vent Control HVAC and CO_2 Sensor Control System:** A Hyundai first and a world's first; detects elevated levels of Carbon Dioxide (CO_2) in the cabin and automatically activates the ventilation system to bring in fresh air, keeping the driver alert and passengers comfortable

5.0 PERFORMANCE

- 5.0-liter DOHC Tau® V8 with 420 horsepower @ 6,000 rpm (Premium); 407 horsepower @ 6,000 rpm (Regular) and 383 lb.-ft. of torque @ 5,000 rpm (Premium); 372 lb.-ft. @ 5,000 rpm (Regular)
- Tuned Intake System: Optimized runner length increases low- and high-speed power output
- Gasoline Direct Fuel Injection: Features upgraded injection mapping
- Increased compression ratio
- Zerotech® timing chain for reduced friction and lower noise and vibration
- 19-inch wheels

5.0 COMFORT & CONVENIENCE

- Ultra-premium leather seating surfaces
- **Electroluminescent instrument cluster** (Supervision) with 7-inch Thin Film Transistor LCD screen (optional on 3.8)
- LED fog lamps
- Quad exhaust tips
- Illuminated door sill plates
- Genuine matte finish wood trim and aluminum trim

5.0 AUDIO & NAVIGATION

- AM/FM/HD Radio™/SiriusXM®/CD/MP3 Lexicon® Logic 7 Surround Sound System with 14 high-efficiency speakers with Lexicon® 12-channel digital external amplifier (75 watts x 12 channels; 900 watts; maximum equivalent output)

DRIVER INFORMATION SYSTEM

CONTROLS THE FOLLOWING

Scrolling through controller: Push to the left, right, backwards, forwards or diagonally; diagonal movement is only used on the map screen.

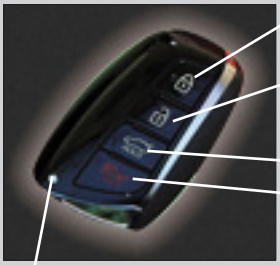
Turning the controller: Turn the controller until the desired menu item is highlighted.

Pressing the controller: Confirm a highlighted menu item.

Toggle left and right for split screen navigation.

PROXIMITY KEY

Different Ways to Unlock and Access



Press once: Lock.
Press twice: Outside mirrors fold in.

Press once: Unlock driver's door.
Press twice: Unlock all doors and unfold mirrors.

Press and hold to unlock trunk.

Press and hold for panic; press any button to turn off panic.

Press to remove mechanical key. Mechanical key can be used on the driver's door, trunk and valet lockout.

When you push the unlock button on Proximity Key fob, it activates approach lights that are located under the outside mirrors; when doors are opened, entry lights also add illumination to aid driver and passengers into the vehicle.

Unlock: Press the door handle lock button. Pull the handle to unlock. Proximity Key must be within range. Lock: Press the door handle lock button.

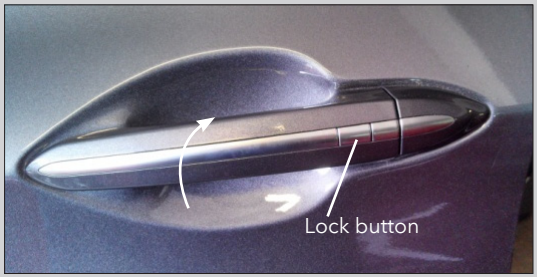


Image shows proximity range to each door and trunk:

- If you press the unlock button on the handle from the driver's door, only the driver door unlocks; a second press will unlock all doors
- If you unlock from any other door, all the doors unlock

Note: Unlocking all doors with one press from the driver's door handle can be selected in the user settings menu.

TRUNK

- Dual lights illuminate the interior
- Color-coded pass-through

Operation: Different Ways to Unlock and Access

There are five ways to unlock the trunk on Genesis:

1. **Smart Trunk** hands-free opener:
   - Must be set to active in the personal settings
   - Trunk automatically opens if user with the Proximity Key stays in the rear bumper detection area for more than 3 seconds
2. Touchpad: Press to open; Proximity Key needs to be within range
3. Press and hold the button on the key fob
4. Press the release button in the vehicle
5. Use the manual key that is located in the Proximity Key

The **Genesis 5.0** also has a **power trunk** opener:

- Press the Proximity Key TRUNK button and it opens automatically
- Press again to close

The valet trunk lockout button is used to prevent unauthorized access to the trunk. To activate the valet lockout system:

1. Open the glove box
2. Press the trunk lock button off; in the off position, the trunk can only be opened with the mechanical key
3. Remove the mechanical key from the Proximity Key
4. Close and lock the glove box with the mechanical key

Note: Without the mechanical key, the Proximity Key can only start the engine and operate door locks.

Emergency jumper terminals are located under the hood.

HYUNDAI | NEW THINKING. NEW POSSIBILITIES.

BlueLink PACKAGING

CONNECTED CARE

- Automatic Collision Notification
- Enhanced Roadside Assistance
- SOS Emergency Assistance
- Monthly Vehicle Health Report
- Auto Diagnostic Trouble Code (DTC) Notification
- Service Link
- Genesis and Blue Link® App (Smartphone)
- Maintenance Alert[1]
- Recall Advisor[1]
- Driving Information
- On-Demand Diagnostics
- In-Vehicle Car Care App[1]
- App Store Access (In-Vehicle and Web)[1]

REMOTE (3-MONTH TRIAL)

- Remote Door Lock/Unlock
- Remote Horn and Lights
- Car Finder
- Remote Start with Climate Control[2]
- Alarm Notification
- Panic Notification
- Stolen Vehicle Recovery
- Stolen Vehicle Slowdown
- Vehicle Immobilization
- Vehicle Safeguard Alerts App:[1]
  - o Valet Alert
  - o Speed Alert
  - o Geo-Fence
  - o Curfew Alert

GUIDANCE (3-MONTH TRIAL)

- Destination Search powered by Google
- Destination Send-to-Car by Google

Note: See myhyundai.com for enrollment and program details

GENESIS BLUE LINK® ENHANCEMENTS

- Audio set up is done with an app on the iPhone and Android smartphones

- **Destination Search Powered by Google®:** Powerful destination search via the Blue Link® button (voice recognition) and navigation display, or through myhyundai.com and the Blue Link® app to send a destination to their car
- **Remote Start:** includes an engine timer (1–10 minutes), remote stop, remote climate control and remote defroster
- **Automatic Collision Notification (ACN) and SOS Emergency Assistance**: Includes user-selected emergency contacts notification via SMS and e-mail

- **Genesis Intelligent Assistant App:** Combines Blue Link® features, data from the vehicle, the owner's smartphone and the Internet with multiple layers of intelligence; this allows proactive notifications and recommendations to be sent to the Genesis owner in preparation for their drive
- Google Glass app contains core Blue Link® functions

[1]Late availability

[2]Requires push button start and either AT or DCT

DAILY NEWS

…after seeing and driving the all-new 2015 Hyundai Genesis, we're here to tell you that the Genesis is as regal, swift, quiet, and comfortable as nearly all of the best mid-size luxury cars out there. In other words, it's the real luxury deal. Believe it.

Knowing the Genesis faces off with the Lexus GS, Acura RLX, and the aforementioned luxury German and American luxury sedans, Hyundai crafted a world class cabin with the best materials we've ever seen from the company.

CAR AND DRIVER

Perhaps the most intriguing feature is the automatic trunk opening. It sounds more like a gimmick than anything else but it's certainly something your neighbor is going to show you if he buys a Genesis. Just walk up to the back of the car, wait to hear four beeps and the trunk opens. No foot waving or button pushing, it just opens like it is reading your mind. Very cool.
